Semen Storage at Northwestern Medical Faculty Foundation

The Semen Cryo-storage Facility at Northwestern Medical Faculty Foundation (NMFF), Department of Obstetrics and Gynecology, is designed to temporarily store semen that are intended to be used for infertility treatment at NMFF. The storage fee for the first twelve (12) months is included in the initial freezing charges for specimens that are collected and frozen at NMFF.

Specimens will be discarded at the end of the twelve (12) month storage period. _____

Storage can be extended upon patient's request. An extend-storage fee has to be paid in full and will cover 12 months of additional storage.

Please sign below to indicate that you have read and agreed with the terms of storage stated above.
